

NEVER, EVER HAS MATH, READING, SCIENCE, AND SOCIAL STUDIES BEEN SO FUN!

Who knew learning could be so fun? We did! So we decided to offer a late summer school session where kids will not only learn all kinds of awesome stuff, but will have so much fun doing it! Don't delay sign up today.

August 7th-10th, 2017 8:30 am – 12:00 pm 5th – 8th Grade (2016-17 SY)

Check ONE class for the week and prepare to have a blast!

Create Amazing Mazes: Use engineering skills to design and construct your own maze, pinball, or pachinko game. Experiment with changes in speed and direction and the effects of gravity and friction. Uses hot glue guns. Abby Bateman **\$10**

Fire Away Catapults: Learn about levers and fulcrums. Use hammers, drills, and saws to build your own catapult. Find out how far and how accurately you can fling all kinds of objects. Paul Gilbert **\$10**

Science Rocks: Be prepared to be WOWED and then WOW your friends! You can make all of these cool things and more with things right in your kitchen; bouncy balls, smoke bombs, gunk, face snot, elephant toothpaste, crystalized geos, and so, so much more! Josh Slattengren **\$20**

Science Gone WILD: Do you enjoy the outdoors? Are you interested in wildlife? Come join us as we do various projects and outdoor activities relating to our area's wildlife. Learn how the Earth is a home for both people and wildlife. This will be a "wild" good time for all! We will go to ponds and catch our own critters and take fieldtrips to Fawn-Doe-Rosa and other exciting places full of wild things. Nate Steeber **\$20**

Hogwarts School: You have been accepted to the 2017 Session of Hogwarts School of Witchcraft and Wizardry! Come in your best Hogwarts uniform, get sorted, and work toward the Hogwarts House Cup! Come explore the same subjects that Harry studied at Hogwarts: Astronomy, Care of Magical Creatures, and Potions. Learn how these subjects truly connect to our Muggle world! Join us and explore the amazing world of Harry, Ron, and Hermione and of course... You Know Who. Sam Roach **\$15**

Top THAT Story/Cartoon: Have you ever thought of writing your own book or cartoon, illustrating it, and sharing it with your friends. In this class you will use a super easy site, Story Top and work with your teacher and fellow authors to create amazing finished items that you will be proud of! Chris Wondra **\$0**

The Amazing Race: Four days, four continents, six countries, and.....ONE Amazing Race! In this class you will be put with a partner and be given challenges to race to finish first. Some of the challenges will be physical and some mental. There are no dull moments in this AMAZING class. Holly Riesselman **\$10**

The Wild West: In today's media, the West in the 19th-early 20th century is sensationalized into an uncivilized place driven by chaos and run by criminals. Is this an accurate portrayal or are they just Wild West myths? The truth is the West was made up of people just trying to get by. They had their hardships but everyone has obstacles, even today. In this interactive activity review statements about life in the 'wild' west and determine if they are fact or fiction. Chad Hall **\$5**

Shhhhhhh! Parents don't tell your kids because they will not realize they are learning about recording observations, procedures and explanations. They will learn about solving problems, taking past failures and changing their ideas to create success. But while learning all of this, they are gonna have so much fun!

Student Name _____ Current Grade _____

Parent/Guardian _____

Address _____

Cell Phone _____ Father's Day Phone _____ Mother's Day Phone _____

Parent Signature _____ Date _____

In case of illness or an accident and parents cannot be reached, whom do we contact?

Name _____ Phone # _____

Name _____ Phone # _____

Bus transport is provided to the same pick-up/drop-off locations as our June Summer School Program.

Free Breakfast and Lunch will be available.

By enrolling your child in summer school programming, you hereby give permission for him/her to leave school grounds with the class.

Please enclose the course fee, made payable to SCF Schools, with registration forms.

Return by JULY 7TH.
