

Winter Athletics Decision Tree - COVID - 19

- School nurse must clear all athletes to return to practice. Parents/guardians must provide nurse with a copy of the test results.
 - If suspected positive athlete chooses not to test, the entire team will begin 14-day quarantine.

* If contact tracing is unable to definitively define close contacts, all members of the team are considered close contacts.

Where can I get a COVID Test?

- Osceola Medical Center: <https://myomc.org/>
- St. Croix Regional Medical Center: <https://www.scrmc.org/>
- Stillwater Armory (Saliva test): <https://mncovidtestingappt.as.me/>
 - Walgreens (\$129 cost) - have to request PCR test
 - CVS (Free) - have to request PCR test

***Some sites conduct in-house testing via a SARS Rapid Antigen Test or offer both types of COVID tests. While the SARS test is a helpful indicator, it is not accurate and will not be accepted to clear students to return to school/athletics. Please make sure to request a PCR test. The SCF District will only accept PCR lab results.
